### ArtAID Art in Service of Humanity

*In response to the September 11 attacks on the World Trade Center, ArtAID produced the original Firefighter's Angel, a beautiful tribute created to console and heal the spirits of the immediate families and friends of those lost.*

*The demand for this artwork was overwhelming and with the help of MILLENNIUM PROTECTIVE SERVICES, INC. the Firefighters Angel was distributed to every firefighter of the FDNY and now hangs in firehouses across the country as it quickly became an icon of healing and tribute for firefighters around the world.*
